

VOICE LESSONS

At JMC our main objective is to develop technique and assign repertoires that enhance students' interests and levels of abilities. Students are guided to expand their musical skills and improve self-expression through a wide range of musical experiences such as concerts, master classes, recitals and performance appraisals.

Beginner to Advanced Level (from 8 years old)

Students will be taught the techniques of voice production. This course will include development of even and focused tones, extending the vocal range, breath control and ear training.

All students will learn breathing techniques, technical exercises and vocalization. Repertoires will be assigned according to individual preferences that are suitable for their age and singing style.

Recommended Technical Exercise Materials:

Voice Placing & Training Exercises, George Dodds
Practical Method of Italian Singing, Vaccai

Supplementary Materials:

The Boosey & Hawks 20th century Easy Song Collection
The Library of Folk Songs
The New Illustrated Treasury of Disney Songs

Those who would like to enter examinations will follow the Trinity College London syllabus. The teacher will explain the requirements for examinations or please visit London Trinity College website at www.trinitycollege.co.uk
